

Schedule Plant Biology Seminar (PBS) – winter term 2017/18
Mondays, 4:30 pm (sharp), Lecture Hall 6F

Date	Speaker	Title	Student host	Host
Tuesday 12.09.2017 4:30 pm, 6F	Jörg Nickelsen LMU München	Biogenesis of Cyanobacterial Thylakoid Membranes	Meng-Ying (P- Anastasiia)	Fabian Brandenburg
25.-27.09. 2017	iGRAD-Plant Retreat 2017			
09.10.2017	Anja Krieger- Liszkey I2BC, University Paris Saclay	Regulation of Photosynthetic Electron Transport: the role of the plastid terminal oxidase PTOX	Fabian (P- Florian)	Marion Eisenhut
16.10.2017	Frank Gaupels Helmholtz Zent- rum München	Functions of nitrogen oxides, non-canonical cyclic nucleoti- des, and phloem-mobile macromolecules in plant im- munity against pathogens	Seomun (P – Björn)	Jürgen Zeier
23.10.2017	Annelie Carls- becker University Upp- sala	Molecular and genetic regulati- on of Arabidopsis root vascular development	Hugo (P – Nils)	Rüdiger Simon
06.11.2017 Career PBS	Stefan Lang Scientific and Medical Writer	A Fascinating Profession: Sci- entific & Medical Writing - From an Employed Writing Scientist to a Freelance Scientific Writer	Birte (P- Daniela)	iGRADplant PhD students
20.11.2017	Ulrich Hammes University Regensburg	Amino acid export - the long and the short of it	Lennart (P- Amir)	Nicole Linka
04.12.2017	Michael Brun- ner University Heidelberg	Checkpoints and feedbacks of circadian transcription	Summia (P- Kristin)	Michael Feldbrügge
22.01.2018	Miguel Blazquez IBMCP, Madrid	tba	Rocío (P – Eva)	Matias Zurbriggen
05.02.2018	Alfred Batschauer University Mar- burg	Metabolite Binding of Plant Cryptochromes	Paola (P – Marc)	Shizue Matsubara
